Finland: FM Disappointed with U.S. Response on Suspected CIA Flight

(U) FM Tuomioja told the Finnish press today that Finland was "disappointed" at the lack of "detailed information" in the U.S. response to Finland's query about a USG plane that landed at Helsinki airport in mid-May 2003. The Finnish MOD reported previously that their records indicated the flight dropped off diplomatic freight for the U.S. Embassy. The FM said he did not expect any further U.S. response.
